Workshop's Collection of Icons

- [Backgrounds](#)
- [Divider lines](#)
- [Icons](#)

To grab an image for your page, click and hold your mouse pointer on the image and select "save this image as..." View the source file to see the width and height dimensions for each image and use the following tagging for each image you use:

```

```

Experiment by adding align= and valign= to place images where you want them to be and to wrap text around an image.

Divider lines

guitar line

groove line

computer mouse thread line

white picket fence line

Note: For other choices, see [Cynthia's favorite bars, lines, and rules](#).

Backgrounds
